

AXI AFC-805

INTERNATIONAL Anti-Gelling Broad Spectrum Fuel Additive

AFC-805 is a unique and powerful anti-gelling broad-spectrum fuel additive specifically formulated for use in diesel, bio-fuels, gasoline, kerosene, and heavy fuel oil. AFC-805 should be used as part of any preventative fuel maintenance program, and is ideal for use in bulk storage fuel tanks in cold weather environments. AFC-805 enhances the breakdown and removal of sludge, slime, and bio-fouling from tank walls and baffles that are difficult to access.

AFC-805 effectively decontaminates and cleans an engine's entire fuel and injection system. It continues to work in storage tanks cleaning and stabilizing fuel for up to 12 months with a single dose. AFC-805 is ideally used for cold weather applications where there is long term fuel storage, such as bulk fuel farms, winterized recreational and work boats, and also smaller engines.

◆ AFC-805 SPECIFICATIONS

Active Ingredients	Combustion Catalyst, Anti-Gelling Agent, Dispersant, Corrosion Inhibitor, Lubricity Enhancer
Treatment Ratio	1:5000
8oz Bottle	320 Gallons (1,211 Liters)
1 Gallon Jug	5,000 Gallons (18,927 Liters)
5 Gallon Jug	25,000 Gallons (94,635 Liters)
55 Gallon Drum	275,000 Gallons (1,040,988 Liters)

◆ AFC-805 FUEL ADDITIVE

A unique and powerful broad spectrum concentrate with an anti-gelling agent for use in diesel, gasoline, bio-fuel, kerosene, and HFO. Benefits include:

- Extended Engine Life
- Extended Filter Life
- Removes / Prevents Carbon Build Up
- Prevents Corrosion
- Cleans Injection System
- Prevents Gelling
- Stabilized Fuel up to 12 mo.
- Added Lubricity
- Improved Combustion
- Lower Emissions
- Improved Fuel Economy
